TLDR

I am a versatile design leader with 10+ years of creative experience spanning traditional studio art, graphic design, and art direction. For the past 5 years I have specialized in UX/UI design, design systems, and site-build.

As an Expert-level Figma user and Certified SAFe® 6 Agilist, I deliver award-winning digital experiences for flagship healthcare and telecommunications accounts.

NOTABLE PROJECTS

Sparrow Bariatrics (University of Michigan Health) | UX Designer

Led UX design for the Bariatrics microsite. Received of the 2023 eHealthcare Award – Platinum Winner Best Landing Page.

Interwell Health | UX/UI Designer

Redesigned their legacy site into a modern modular platform designed to prioritize scannable content, streamlined user flows and built to optimize growth.

Reid Health Hospital System | UI Designer

Oversaw UI design for a comprehensive system-wide website relaunch.

T-Mobile | UX/UI Designer

Redesigned individual pages and content modules for T-Mobile, prioritized a mobile-first experience and focused on accessibility, customer journeys, and value add opportunities.

Boston Scientific | Lead Site Build Specialist

Managed end-to-end site build for Pain.com and DBS and Me websites.

PROFESSIONAL EXPERIENCE

MERGE | Senior Studio Artist - Experience Design

2020 - Present

Implement design thinking and strategic insight to clients by delivering user-friendly, functional, and accessible web experiences. Collaborate with UX leads, developers, and project managers to define project goals, requirements, and deliverables. Create wireframes, prototypes, information architecture, user-flows, and personas. Apply expert-level Figma knowledge and UX/UI principles ensuring outputs are optimized for the end-user. Manage and train a team of two, focusing on AEM content authoring and UX/UI design.

MERGE | Studio Artist

2018 - 2020

Managed brand accurate and consistent deliverables of multiple clients and varying timelines. Applied client feedback and maintained precise file structure and naming conventions. Ensured final deliverables match specification requirements. Mastered new design tools and applications to meet client and agency needs.

HCB Health | Graphic Designer

2016 - 2018

Provided design support to senior art directors and copywriters. Implemented design changes and client feedback with accuracy and consistency. Created paper mockups of brochures and other printed deliverables. Attended and contributed to internal reviews and participated in concepting sessions for creative campaigns.

CORE COMPETENCIES

Design Systems

Architected designs systems using a structured token hierarchy. Assigned variable values and modes to craft a system of components built for scalability.

Documentation

Authored and designed comprehensive documentation, streamlining the handoff process and safeguarding the system for future stakeholders.

Communication

Experienced with presenting and showcasing work in front of large groups including both client stakeholders and colleagues.

Design Leadership

Oversaw projects from kickoff to launch, provided mentorship to junior designers, while managing multiple projects concurrently.
